Service Information

Service

Castlereagh Industries ensures we provide great customer service and quality products to our customers. We have been in business since 1976 employing over 20 workers with a disability, as a special works of St Vincent de Paul Society.

Wiper Manufacture

Wipers are cut from recycled textiles using a cutting machine operated by disabled workers. They take pride in their work and have a lot of experience in textile recycling.

Below: Pallets being stacked for shipping to customers. Prior to dispatch they are shrink-wrapped.

Benefits

Compact storage within your workplace.
Compliance with OHS using pallets for ease of manual handling.

Packaging

Products are packaged in white bags after being compressed in our packaging machine into 10kg or 15kg slabs. This is then placed on pallets for transport.

Delivery

Delivery is via road transport to a Sydney central depot for pickup.
